GO_BP (islet_senescence_DEGs)
EXPLORATORY − A: all expressed islet genes
morphogenesis of a branching epithelium
morphogenesis of a branching structure
ureteric bud development
mesonephric epithelium development
mesonephric tubule development
mesonephros development
kidney development
renal system development
negative regulation of response to external stimulus
kidney epithelium development
regulation of apoptotic signaling pathway
nephron development
chemotaxis
taxis
mesenchymal cell proliferation
