KEGG (islet_senescence_DEGs)
EXPLORATORY − A: all expressed islet genes
MAPK signaling pathway
Proteoglycans in cancer
Melanoma
PI3K−Akt signaling pathway
Pathways in cancer
Gastric cancer
Rap1 signaling pathway
Calcium signaling pathway
Human cytomegalovirus infection
EGFR tyrosine kinase inhibitor resistance
Ras signaling pathway
Breast cancer
Kaposi sarcoma−associated herpesvirus infection
Chemical carcinogenesis − receptor activation
Regulation of actin cytoskeleton
