GO_BP (islet_senescence_DEGs)
EXPLORATORY − B (caveat): senescence−union genes expressed in islet
response to external stimulus
morphogenesis of a branching epithelium
morphogenesis of a branching structure
regulation of response to stress
ureteric bud development
mesonephros development
mesonephric epithelium development
mesonephric tubule development
nephron development
kidney development
renal system development
negative regulation of response to external stimulus
negative regulation of wound healing
kidney epithelium development
mesenchymal cell proliferation
